

PERSONAL PROFILE

Year 2 **Computer Science Student (2:1)**. Technology Enthusiast, Passionate, competitive, goal, and task oriented. I have been coding since 2015.

Strong skill set in communication and creative problem solving with experience in working with **PYTHON, Django, JAVA, SQL, NODE JS, PUPPETEER (Web-Scraper), Linux/UNIX, Docker, Bootcamp, HTML, CSS and JavaScript, JSON.**

Over the past few years, I have continuously developed my skills, by partaking in the following online courses:

- StackSkills Course: Django 2 & Python – The Ultimate Web Development Bootcamp.
- Kali Linux Network & Web App penetration-testing (via Hackersploit Academy).
- Python for Ethical Hacking – Developing Custom Scripts & Hacking Tools for Network & Web App Pen Testing (via Hackersploit Academy).
- Learn Python 3 (CodeCademy)
- Analyze Data with SQL (CodeCademy)
- Learn Linux/UNIX command line (CodeCademy)

Experienced team player demonstrated through multiple sporting interests and achievements, particularly my role as captain of my school basketball team and being a part of the Belfast Phoenix basketball team. Significant experience in sales, customer care, and technical IT advisory roles demonstrated through part-time employment; as part of my role in Curry's I gained significant experience in coaching, mentoring, and inducting new staff as part of the onboard training programs.
